Subject: Trifocal

Dear Leonard Maggiore,

Just wanted to let you know I have been using the trifocal mask you made for me. It is great! Especially at night, I can read my gauges & see mid & far range objects very well. Excellent job.

Jeff Rey M.D.
Laguna Niguel, CA

Dear Leonard,

This morning I woke up thinking about underwater photography, and bemoaning the fact that my old prescription mask does not have bifocals, and for some reason your name popped into my head. I bought a set of lenses in an Aqua-lung tri-view mask about 35 years ago, and am still using them today. They have been through 3 or 4 mask skirts, and the lenses are as good today as they were 35 years ago. However, they are pretty far from my current prescription. So I was very excited to find that you are still making prescription masks, and called to order one. Can't wait to get it and be able to see the display screen of my camera again!

Here are some of my pictures from Belize that I took with the old lenses a couple of years ago. Can't wait to try the new ones!

Thank you very much for the mask. It's absolutely perfect, just what I need. We do a lot of diving at my installation, and I'll be sure to recommend your business to everyone.

Subject: my new mask

I love my new mask!

I just returned from the Dominican Republic and the Virgin Islands. I could actually see the fish when I snorkeled. Thanks so much. Everything was perfect.

Hello,

I would like to complement you on the quality of the RX mask lenses you made for me. I think you did a fantastic job. I love the mask and it helped me to enjoy my dive vacation the fullest. I will highly recommend you to anyone I come across who needs a RX dive mask.

Thanks again and be well.

Chris Summers.

I received the dive mask on Monday, just as you promised. It is perfect.
Thanks again for doing such good work! Best regards, Eli Finkelstein, MD

Dr. Maggiore,

I just received the prescription mask I ordered on January 27.

I am very pleased with both the quality and promptness of your work. It is a much better mask than the old one I have been using for years. With my somewhat complicated prescription, I was skeptical about ordering remotely.

Next stop - the Great Barrier Reef!

Gregory Maggiore
Leonard Maggiore,

A very belated response.

I got a RX make by you for my dive mask in Dec. I want to let you know I've used it for several trips and it is very nice. It improves my pleasure while diving and I can more easily identify my dive partner underwater. I had not realized that it would improve my vision on the surface, also. That helps to prevent sea-sickness while waiting to dive after my regular glasses are packed away.

An amusing note; I have the overlook type, my dive master remarked that he kept thinking that I had water in my mask!

Thanks,
Fred Klein

Dear Mr. Maggiore,

You made my first pair of lenses for my dive mask in 1971, and they lasted about 33 years. Recently, I purchased a second pair from you, when my vision changed to the point where the first lenses were no longer practical. I have now made a few dives with these new lenses and found them to be excellent. They are just as good in all respects to my older lenses, and I am very satisfied with them.

I am writing today just to say thanks very much for another great job !!!

Wishing you all the very best,

Jim Price

Doctor Maggiore,

You may remember making my mask, I am William Blankenship in Toledo, Ohio.

I sent you the "heavy positive RX left eye +6.0 and Right eye +7.75.

I just got the mask back yesterday Tue May 18th.

I wanted to thank you for being so prompt and quick with getting the mask back to me, that was faster that I had expected.

Now for the good part you want to hear.

I went to the dive shop this morn to try out your work, not knowing what to expect, geared up, got into the pool, put the mask on (preying that I could see underwater) put the regulator in my mouth and down I went. I could see!! I picked up the gauges and I could see them better than I could if I were out of the water!

Another thing is that I never knew that the gauge console I have been using had a water temp gauge on it till today cuz I could see it! 80 degrees it read!

This may sould silly doc, but you have a gift and I believe in thanking ppl when they have done me a good turn.

If it weren't for your skill, I couldent have continued with my dive classes! I am just a little emotional about it and wanted to thank you! if it weren't for you I would have to had to give it up, and I love diving!

I am so pleased with this because nobody else could help me into anything but a +4.

Rest assured I gave the dive shop your name # and address.

I can see wonderfully underwater!
Thank you Doc, William Blankenship

"Dear Mr. Maggiore:

I received my mask with the prescription face plate a week ago and have used it three times since then. As to the quality of your work on it and its corrective effect on my eyes you may add my name to your list of very, very, very satisfied divers with vision problems. The extra large size of the lenses on the face plate really do the trick. I have thrown away my old inserts which were bulky, which obstructed my vision and which caused a fogging problem. You may not know it, but you have now opened up a whole new world of diving pleasure for me. I will certainly mention you to any divers I meet with vision problems. I can never thank you enough for your service.

Yours very truly,

A.C.E.
Arabi, Louisiana"

"Dear Mr. Maggiore:

Thanks for the fast service on the prescription face plate. It is a very beautiful job and checks out in air at 20/20 which is excellent for me. Will drop you a line from St. Croix. Please keep my prescription on file as I will probably get another when I return from vacation.

Yours truly,

Doctor J.A.C.
Massillon, Ohio"

"Dear Mr. Maggiore:

I received my mask back from you today with the prescription face plate. Frankly, I haven't had the opportunity of using the mask in water yet, but I was certainly impressed with the very fine job that you did. In fact, I can wear the mask instead of my present glasses. Certainly, if you need any recommendations for quality work, have them drop me a note.

Best of Luck

L.B.K.
Madison, Wisconsin"

"Dear Mr. Maggiore:

Have been using your prescription face plate since I arrived in Tobago. I could not be more pleased with it.

Sincerely,

Doctor P.S.
Memphis, Tennessee"

"Dear Mr. Maggiore:

My husband got a mask with a prescription face plate from you about three months ago and has been quite pleased with it. We've gotten a number of inquiries about where he got it and have passed on the good word.

I would also like a prescription face plate made for my mask. Enclosed is the prescription and check for same and my mask is in the attached box. I'd like to have it as soon as possible.

Sincerely,

Mrs. W.R.
Orlando, Florida"

I would like to have the whole face plate covered with my prescription lenses like you did for my Pinocchio. The extra large lenses are terrific! I'd appreciate another rush job as I am planning another diving trip in a week and would like to have a spare.

Thanks,

S.I.
Levittown, N.Y."

"Dear Mr. Maggiore:

I received today my face mask with the prescription face plate and tried same out at the Y.M.C.A. pool. The prescription is perfect and your workmanship is superb. I want to thank you personally for many anticipated hours of swimming pleasure. Please be assured that anyone asking me for information regarding it will be referred to you without reservation.

Very truly yours,
M.K.J.
Evergreen, Colorado"

"Dear Mr. Maggiore:

I have just returned from a trip to the Florida Keys. Your prescription face plate was effective to a degree I would have considered impossible. It really "made" the trip for me.

Doctor F.H.B.
Carthage, Missouri"

"Dear Mr. Maggiore:

I received the face plate last week and got in some diving over the weekend. The word is O.K. The face plate is just like seeing through my glasses underwater. I am very well pleased and hope to do a lot of diving in the near future.

J.M.H.
U.S. Navy"

"Dear Mr. Maggiore:

Have used the face mask with your prescription face plate almost daily for the past month and find it very satisfactory. I am very pleased with its good wide angle vision underwater. Thanks a lot.

Doctor J.C.
St.Croix, Virgin Is."

"Dear Mr. Maggiore:

Last January I received your prescription face plate and I left on a trip to the Washington Coast. I used your mask and was amazed at the difference in the underwater clarity. I was diving then with two other divers, both of whom have a slight correction problem, but don't wear underwater lenses. My vision was so much better than theirs, it was hard to believe. I have since used the mask many times and am completely satisfied.

D.A.
Boise, Idaho"

"Dear Mr. Maggiore:

I wish to express my greatest satisfaction in the clear vision I obtained upon the use of your prescription face plate. A new world of precision vision has expanded my deep appreciation for life under the sea. "Mohalo Nui Loa" in Hawaiian means "thank you very much" Aloha.

P.P.
Hawaii"
